About Me

Self-driven and adaptive professional with diverse experience across multiple fields including IT, hospitality, manufacturing, hardware, and software. Hands-on expertise in Flutter app development, frontend engineering, and cross-platform performance optimization, along with strong communication and customer service skills. Having worked in different environments, I have gained multi-dimensional knowledge and adaptability. My goal is to work in Europe, where I can further grow my skills, gain international exposure, and contribute my efforts with full dedication.
